Education

Bachelor of Architecture

2023-28

Amity School Of Architecture & Planning, Amity University Uttar Pradesh, Lucknow Campus

CGPA: 8.75

Experience

Unit Secretary – NASA India

July 2025 – Present

- Represented the student body in official academic and organizational matters
- Coordinated architectural events, workshops, and conventions
- Managed inter-college communication and organizational planning
- Led team operations for national and zonal level activities

Internship

Nirman Architects & Interior Designers, Hardoi, Uttar Pradesh

1 June 2025 – 14 July

On Site & Office

- Worked closely with the architect on residential and commercial projects.
- Independently produced proposal drawings, 3D models, renderings, and electrical layouts.
- Supported client-facing design presentations and revisions.

Academic Projects

1. Business Centre | Semester V

Mixed-use project comprising commercial retail and office zones

Focus on spatial zoning, circulation, and functional planning

2. Bike Showroom | Semester V

Commercial showroom design with customer flow, display planning, and service areas

3. Community Centre | Semester IV

Designed community-oriented spaces with emphasis on social interaction and accessibility

4. Primary School | Semester IV

Academic building design focusing on child-centric planning and learning environments

5. Portable Kiosk Design | Semester III

Designed a demountable and relocatable kiosk system

Emphasis on modularity, ease of assembly, and transportability

6. Residence Design | Semester II

Individual residential unit focusing on spatial planning and basic building services

7. Measured Drawing & Documentation

Nageeno Wali Baradari, Lucknow Zoological Garden

Detailed measured drawings and architectural documentation as part of academic coursework.

NTCC Projects – Research & Design Integration

1. NTCC Project – Rug Craft Documentation & Residence–Workshop Design | Semester III

- Identified and studied traditional rug-making as a local craft through field research.
- Conducted in-depth interviews with a rug artisan, documenting the history, tools, materials, and weaving process.
- Analysed craft workflow to derive spatial requirements for living, working, and storage.

2. NTCC Project – Shyamnath Temple Complex, Sitapur | Semester IV

- Conducted independent site documentation of a community religious space using manual measurement, photo-scaling, and on-site observation techniques.
- Documented the historical, cultural, and social significance of the temple complex and its role in

- community engagement.
- Analysed existing spatial conditions to identify functional and social shortcomings within the site
- Proposed context-sensitive design interventions aimed at improving community interaction and usability of spaces.

Skills and Interests

- **Technical Skills:** AutoCAD Advanced (Construction Drawings and Layouts), SketchUp Intermediate (3D Modelling), Revit Basic (3D Modelling & Schedules), D5 Render, Lumion
- **Design & Creative Skills:** Concept Development, Spatial Planning, Sustainable Design Principles, Building Materials & Construction Techniques
- **Documentation & Professional Skills:** Working Drawings, Building Bye-laws & Codes Understanding, Site Analysis, Project Presentation & Layout Design
- **Areas of Interest:** Residential Architecture & Family-Oriented Housing Design, Facade Design & Architectural Elevations, 3D Architectural Modelling & Visualization, Contemporary Exterior Aesthetics, Space Planning for Private Residences

Certifications

1. **IGBC Green Quest – Green Buildings Presentation**
Indian Green Building Council (IGBC)
Participated and presented on sustainable building strategies and green building concepts
